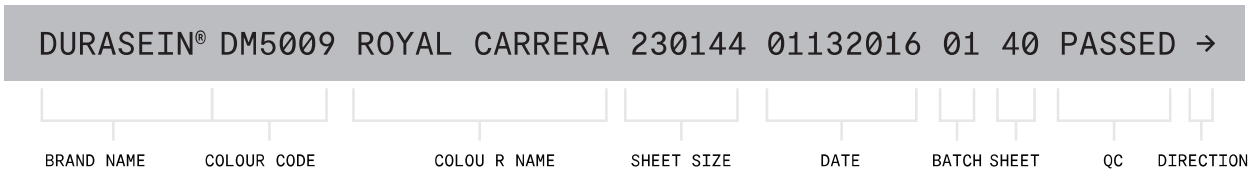
Durasein
Sheets Numbering System

GRAPHIC REPRESENTATION OF DURASEIN® VEINED COLUOR SHEETS



Standard colours:

Both the back of the sheet and the long side of the sheet have print codes.
At the back of sheet, the last two numbers mean batch number.
For example the number on the **back** of the sheet

`230144 01132016 01` means

- 2 (1/2" thickness)
- 30 (width)
- 144 (length)
- 01 (month)
- 13 (day)
- 2016 (year)
- 01 (batch number)

At the long edge of the sheet, the number sequence will be similar, however, the last two numbers represent the sequence of sheets from one batch

For example the number on the **edge** of the sheet

`230144 01132016 01 40` means

- 2 (1/2" thickness)
- 30 (width)
- 144 (length)
- 01 (month)
- 13 (day)
- 2016 (year)
- 01 (batch number)
- 40 (sequence or sheet number)

Vein colours:

Only the long side of the sheet has printing
For example the number on the **edge** of the sheet

`230144 01132016 01 40 PASSED →` means

- 2 (1/2" thickness)
- 30 (width)
- 144 (length)
- 01 (month)
- 13 (day)
- 2016 (year)
- 01 (batch number)
- 40 (sequence or sheet number)

Note: The arrow following the numbers (" → ") means pattern direction.

Therefore, sheet numbers are indicated by the last two numbers printed on the side **edge** of the sheet.

`230144 01132016 01 40`

`230144 01132016 01 39`

`230144 01132016 01 38`
